

Please do not add senseless legislation to prohibit XM from transmitting Traffic & Weather. In fact there should be no limits on this type of data transmission as it should be public knowledge. We as listeners are willing to pay for better programming than is offered via the ? Free Airwaves ?. Don?t punish us for supporting the American Ideals of Freedom of Choice and Free Economy. Don't limit waht can be prodcast to benefit the Broadcast community. If you want to do something maybe broadcasts should be limited as to the number of stations they own. Clear Channels has WAY TO MANY in the Miami/ Fort Lauderdale listening market.
